

Corporate Group Tours of Melbourne City

Hidden Secrets Tours is Melbourne's original laneways walking tour company who have been showcasing Melbourne to locals and visitors for the past 11 years. We live and breathe our city and the amazing businesses within.

Melbourne is a unique city with endless hidden secrets tucked inside historical arcades and down character filled laneways, which deserve an introduction. Rather than simply providing guests with a map of the city, why not offer a personal touch. Our local guides bring the best out of Melbourne, to acquaint your guests with the hosting city and differentiate their Melbourne experience from other conference cities.

Our company focuses on the local business and the unique side of Melbourne rather than shops and experiences you see anywhere in the world. With a mix of history, local stories, architecture, street art, food and fashion, we can tailor a tour to meet your needs. All within the '1 mile block' of the CBD.

Tours are delivered in English at a steady, casual pace, suitable for conference delegates and family members. Due to Melbourne's arcade and covered walkways, our tours are suitable in all weather and can be booked for anytime of the year.

Past corporate tours

In 2015 we conducted a number of corporate tours, two highlights for us were:

• The International Association of Trade Lawyers

This event was a reward trip for the members. There was no conference element, so it was all about letting them understand and enjoy their time in Melbourne. We hosted 120 passengers from the United States over two days in groups of 10-12.

• Young Professionals Organisation

This was a conference of delegates from all over the world. We created bespoke tailored tours for 60 guests in 5 groups to unveil Melbourne to both the delegates and their accompanying family members.
